1. Opening

2. Announcements

3. Andrei adding cringe to agenda

4. Verify agenda

5. ACTION POINTS:

4 Action points:

- Andrei Finish News part
  Code has been """finished""", doesnt crash #Untested #testing is for losers.
- Peter: Look around the server to setup the server
  Server has both been set up and Peter has made an indept guide on how to set it up.
- Tim: Loggin in -> Connecting frontend with backend.
  Tim is not attending. He has showed a proof of concept demo so we assume he is working on it.
- Mauk: Whip the code monkeys
  Mauk has gone MIA, code monkeys went unwhipped.

6 Stuff to finish before deploy

- Cors shit
  Disabled by tim, need to ask him next time.
- Board message @kelbi
  Kelbi is fighting a war, maybe before the next christmas. SoonTM
- News @And ray
  Andrei is working on it. Still needs testing.

- Need to fix formatting in blueshell calendar @peter.

7 What we will be working on

Kelbi will do the board text

Andrei Fixes the news

Peter Will continue on the "Games we Play" section

Tjalling will contact Tim to set up the site and help Andrei with backend

Jelle Will look through the pins and try to set up the site locally

6. Current progress

7. What we'll be working on

8. Any other business

9. Question round

10. Next meeting

11. New APs

12. Closing
